

AQUARIUM OF WESTERN AUSTRALIA

SEA FOR YOURSELF

My Underwater Adventure at AQWA

I am going to AQWA for an underwater adventure. AQWA is an aquarium where people can go to see lots of sea animals and marine life.

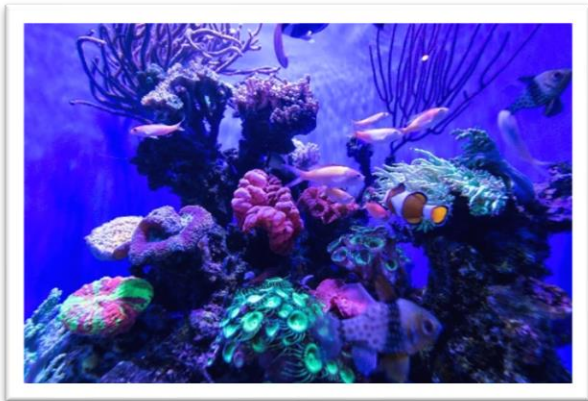

When I arrive at AQWA I will see the entrance.

We will line up at the top of the steps and buy my ticket. They will then let me in.

I will get a map of the aquarium so I can see where the different sea creatures are.

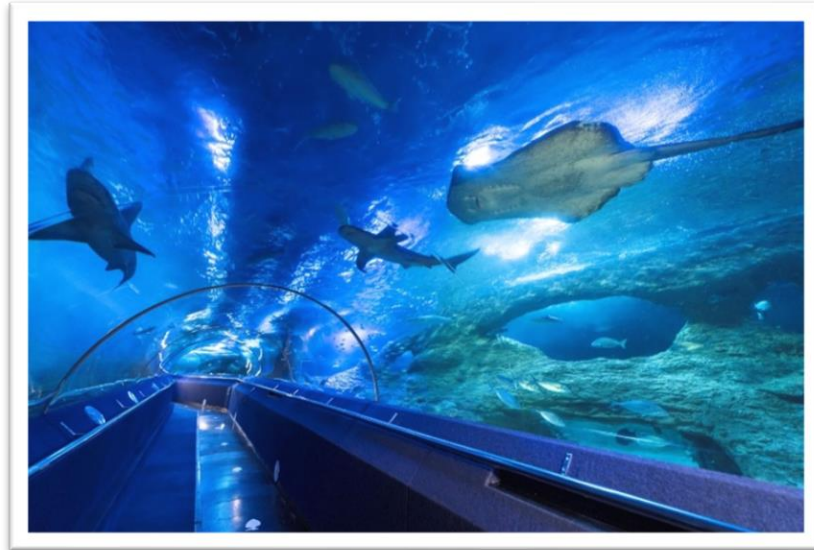

When I walk around the Aquarium there will be lots of fish, sea creatures and coral for me to see.

Most of the animals will be behind glass but I will still be able to see lots. I can try to remember not to bang on the glass because it is scary for the animals.

The aquarium can be quite dark so that we can see the fish better, so it is important that I stay with my family or friends who I came with.

There is an Underwater Tunnel that I can walk through and the fish will swim over my head. There will be sharks and stingrays but I will be safe because they are behind glass.

There will be staff who can answer questions about the fish and animals.

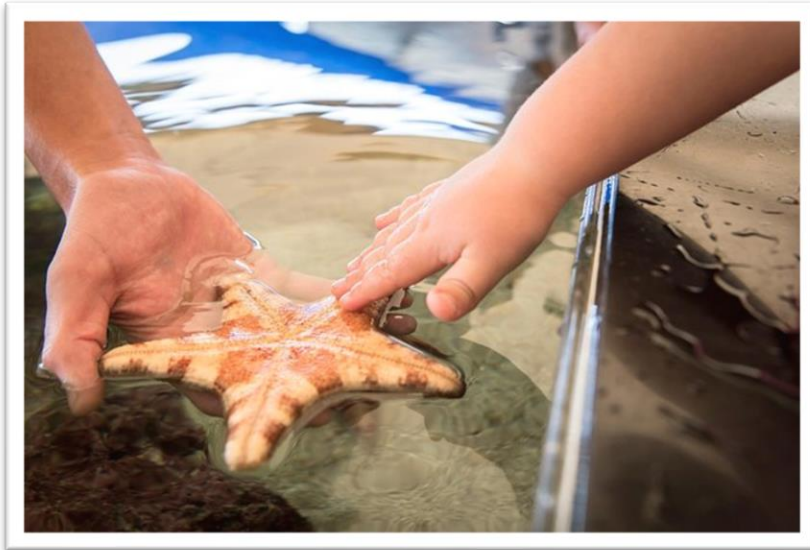

The touch pool is where I can touch some of the animals if I want.

wait

**I will try and remember that there are lots of people around me
and that I will need to wait and take turns.**

If an animal lives underwater it can only breath underwater so I should try not to lift the animal out of the water. I can try to be gentle when I touch the animals.

While I am at the aquarium I can have some food in the café.

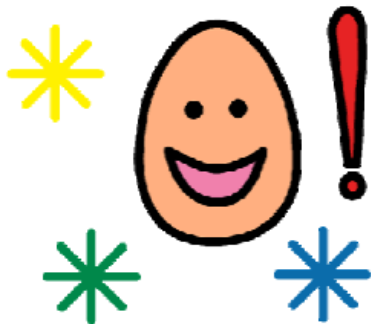

break

If I need a break I can tell an adult and we can go to a quiet space where I can stay until I am ready.

When it is time to leave I walk out through the gift shop.

If I try to follow the rules, this will help me and everyone else to have a safe and fun time.
